

7-15-10

Dear Pace,

I'm writing this letter to explain how appreciative I am of you giving the money that I receive from you to help contribute to my college education. I would personally want to thank you so much for what you have done for me since I've been in college. By you investing into my future has allowed me to flourish in the classroom and help me find out what I want to do and what it takes in order to be successful. During last year's spring term I made the decision to change my major from political science to Exercise Science. By switching my major to Exercise Science I felt that I would be more intrigued and interested due the fact that it was related to athletics. By having an Exercise Science degree you can do almost everything from athletic training to personal training, but my plan is to become a physical therapist. Throughout my last year things was very challenging, but I managed to get a 2.5 GPA the first semester and the second semester I received a 2.4 GPA. I can assure you that I will continue to excel in the classroom and keep staying focus on the task at hand. As I resume my academic career next year I will continue to strive for perfection and will except nothing but greatness in classroom as well as in my athletics. Thank you for the opportunity and I can promise you that I will continue on the path to success in large part due to your efforts and support. I will send my official transcript soon.

Sincerely,

Maurice Harden II
